User/Installer Responsibilities

It is important to understand that the existence of this document alone does not automatically constitute authority to install the engine/propeller/article.

Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1. It is essential that the user/installer ensures that his/her airworthiness authority accepts aircraft engine(s)/propeller(s)/article(s) from the airworthiness authority of the country specified in Block 1.

Statement in Blocks 13a and 14a do not constitute installation certification. In all cases aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.

Appendix C (Part V)

Engine Incident / Accident Clearance Report

This report must be completed by the Operator of the Engine at the time of redelivery and certified by its Airworthiness Manager or equivalent. Complete in Full

Operator:	China Southern
Engine Serial Number:	699364
Reason for Removal:	HPTB damage/Lease return

	Installation Details	**Removal Details**
Date:	2019.12.20	2023.01.23
Aircraft S/N & Position:	B-6303 RH	B-6303 RH
Engine Total Hours:	22382	28647
Engine Total Cycles:	13013	17167
Hours Since Installation:	6265	**Note:** Round to the nearest hour 1 – 29 minutes Round Down 30 – 59 minutes Round Up
Cycles Since Installation:	4154	

Operated Rating and Configuration:

CFM56-	**5B1**☐	**5B2**☐	**5B3**☐	**5B4**☒	**5B5**☐	**5B6**☐	**5B7**☐	**5B8**☐	**5B9**☐
Configuration		**/P**☐			**/3** ☒			**B1** ☐	

Note: In the event that the engine thrust rating is changed during the operation, such change should be treated as a removal and re-installation for the purpose of this report.

Has the engine or any component installed been damaged during, or identified as the root cause of, a reportable incident or accident as defined by Annex 13 to the Chicago Convention?	**Yes**☐ **No**☒
If YES, has the airworthiness status been re-established by an approved maintenance organisation in accordance with the instructions of the type certificate holder and/or OEM of the part and supported by an authorised airworthiness release certificate?	**Yes**☐ **No**☐

Note: If YES, to any of the above two questions, relay all related information to the Engine Lessor.

Incident/Accident Clearance Statement

Engine Serial Number	Operator	TSN at Removal	CSN at Removal
699364	China Southern	28647	17167

This is to certify, to the best of my knowledge, that in relation to the engine with the above Engine Serial Number (the "Engine") the following statements are true and correct:

1. Neither the Engine nor any component(s) installed or replaced by the Operator have

   (a) been damaged during, or identified as the root cause of a reportable incident or accident as defined by Annex 13 to the Chicago Convention, or

   (b) experienced any RPM or EGT exceedance, nor have they been subjected to any extreme heat or other form of extreme stress e.g. major engine failure, as defined by the Lessee's regulatory authority, been immersed in salt water or otherwise exposed to corrosive agents outside normal operation;

   unless its airworthiness status was re-established by an approved maintenance organisation in accordance with the instructions of the type certificate holder and/or OEM of the Engine or component, and supported by an authorised airworthiness release certificate.

2. No component has been installed on the Engine which was obtained from a military source or was previously fitted to a state aircraft as deemed by Article 3 of the Chicago Convention.

3. The Engine with installed components and attached hardware has been operated and maintained in accordance with the applicable OEM manuals, with no deviations from the applicable OEM manuals (including any OEM approved revisions).

4. There are no deferred items applicable to the Engine, and no Life Limited Parts were replaced.

5. The Engine was correctly stored and transported in accordance with the OEM recommendations.

6. Neither the Engine nor any component(s) installed has been repaired using PMA / non-OEM material(s) or material(s) containing non-OEM repairs and no DER / non-TCH repairs have been performed on the engine and/or component(s) installed.

USER / INSTALLER RESPONSIBILITIES

Note : 1.It is important to understand that the existence of the document alone does not automatically constitute authority to install the part / component / assembly.

2.Where the user / installer works in accordance with the national regulations of an Airworthiness Authority different from the Airworthiness Authority specified in block 1 it is essential that the user / installer ensures that his / her Airworthiness Authority accepts parts/components/assemblies from the Airworthiness Authority specified in block 1.

3.Statements 14 and 19 do not constitute installation certification. In all cases the aircraft maintenance record shall contain an installation certification issued in accordance with the national regulations by the user / installer before the aircraft may be flown.

Form of Bill of Sale

easyJet Malta Limited (the "**Seller**") a company incorporated under the laws of Malta whose registered office is at 30, Princess Elizabeth Street, Ta' Xbiex XBX 1104, Malta,

is the owner of the full legal and beneficial title to the following described engine:

(a) one CFM56-5B5/3 aircraft engine bearing Manufacturer's serial number 699364;

(b) all Parts; and

(c) all Engine Technical Records,

(together the **"Engine"**).

For and in consideration of the payment of the Purchase Price under an engine sale agreement dated 24th day of April 2009 (the "**Engine Sale Agreement**") made between the Seller and Shannon Engine Support Limited, (the "**Buyer**") the Seller hereby at 20.00 hours (GMT) this 28 day of April 2009 with full title guarantee (save only to the extent that the Seller's title may be impaired by any Buyer's Encumbrances and so as to exclude any liability of the Seller in respect of any Buyer's Encumbrances) grants, conveys, transfers, bargains and sells, delivers and sets over, all of the Seller's right, title and interest in and to the Engine, unto the Buyer. The Engine is sold "as is, where is" and free from all Encumbrances other than any Buyer's Encumbrances.

This Bill of Sale is executed and delivered to the Buyer by the Seller pursuant to the terms of the Engine Sale Agreement and the terms "**Purchase Price**", "**Part**", "**Engine Technical Records**", "**Buyer's Encumbrances**" and "**Encumbrance**" shall each have the same meaning as set forth in the Engine Sale Agreement.

This Bill of Sale is delivered by the Seller to the Buyer in Malta and is governed by the laws of England.

IN WITNESS whereof, the Seller has caused this bill of sale to be executed by its duly authorised officer this 28 day of April 2009.
